NON-WOVEN
RANGE OF PRODUCTS

NON-WOVEN RANGE OF PRODUCTS

Introduction

WOVINOVA Industry is professional manufacture of various disposable medical products. We have several factories separately located at Rajendra Nagar Industry Area , Sahibabad, Uttar Pradesh, India.

Our main products are gauze, non-woven products, wound care tapes, bandages, all types of disposable Drapes & gowns, etc. We are also specialized in contacting manufacture for your outsourcing needs. Our products have been supplied to india's top institutes and export to other countries through third parties.

Why WOVINOVA

Our company culture is to provide the best quality products best services to our customers. We uphold the business philosophy of maintaining integrity in business, diligence and frugality in governance and a professional and devoted work ethic. We are always ready to build strong friendly partnership with our customers.

WOVINOVA are engineered to pass the industry standard test that measure fluid and synthetic penetration, which helps to provide maximum clinician and patient safety. They are resistant to abrasions and punctures, yet their flexible , cloth like properties allow them to drape naturally , following the contours of the patient. The impervious structure of theses surgical drapes can help to reduce the occurrence of strikethrough, which creates a pathway for microorganisms, which can lead to contamination and infection. In addition, the absorbent top layer effectively holds and disperse fluid away from the patients.

Designed for Safety

Wovinova Surgical Drapes are resistant to tearing, Strikethrough and abrasions providing secure attachment of lines and tubes. They have reduced lint levels therefore decreasing the risk of airborne bacterial transmissions. They are available with fluid collection pouches wherever necessary and arm board covers for full surgical site coverage.

Our products are also widely used for protection in surgeries and in case of contagious diseases. Some of the unique features that our products have included the followings contents.

Safe for use.

Hygienically manufactured in CE certified facility

Permits freedom of movement during surgeries

Suitably Colored

Knee O Drape

We Provide Knee O Drape as per the requirements and specifica of the surgeons which are used in all kinds of Knee Area surgery including Knee Replacement.

Advantages:

- Comfortable & safe to use.
- Post opera
- Customiza
- Faster recovery of pa

Specifications:

- Water Repellent & fiber free fabric
- Head Sheet Size 1.5 x 2.50 m
- Elastic Aperture diameter 16 cm
- Elastic Cuff 10 cm wide with tie belt
- Poly Sheet lining 1.2X1.2 m

HIP U Drape

We Provide Hip U Drape as per the requirements and specification from Surgeons which are used in all kinds of Hip area Surgery including Hip Replacement.

Specifications:

- Water Repellent & fiber free fabric
- Head Sheet Size 1 x 1.5m
- Adhesive strip 4 cm x 1.5 cm
- 2 Pockets 12 x 35 cm
- 2 Tube & Cable holders
- U Sheet-Size 1.75 x 1.5 cm
- Straight 24 cm
- Poly Sheet lining 1 x 1.25m

Arthroscopy Drape

Knee arthroscopy drape is designed to the purpose of featuring impermeability all over the drape to minimize the risk of strikethrough in all surgical situations. Inter related fluid collection pouch to maximize fluid control. Guided handling points and sophisticated folding principles ensure aseptic application in the draping procedure. The BARRIER and procedure packing systems ensure correct aseptic handling throughout the entire logistic chain from warehouse to operating theatre.

Specifications:

- Water Repellent & fiber free fabric
- Elastic Aperture diameter 5 cm
- Sheet Size 1.6 x 2.75 m
- Fluid with collection pouch & Connector
- Fabric Funnel fixed around aperture
- Poly Sheet lining 1.20 x 1.20 m

Spinal Drape

We provide the Spinal Drape as per the requirements and specifications from surgeons which are used in all kind of Spinal Surgery, laminectomies etc.

Advantages:

- Comfortable & safe to use
- Customization against surgeon's requirements
- Post operative fever & pain is less.
- Faster recovery of patients.

Specifications:

- Water Repellent & fiber free fabric
- Sheet Size 1.5 x 3m
- Incise Area 15 x 35 cm
- 1 Tube & Cable holder
- Pad 2 no. 15 x 50 cm
- Poly Sheet lining 1.20 x 1.20m

Angiography Drape

Angiography Drape is specially designed to sustain long surgery. Soft breathable strong & virtually lint free material is impermeable to bacteria & body fluid. The self-adhesive effectively seals area around the incision

Advantages:

- Comfortable & safe to use.
- Customization against surgeon's requirements.
- Post operative fever & pain is less.
- Faster recovery of patients.

Specifications:

- Water Repellent & fiber free fabric
- Sheet Size 3.2 x 1.5m
- Incise Area Diameter 4 inch
- Poly Sheet lining 1.2 x 1.5m
